PROJECTS

MyMa Wallet project and Safe Dorm

6month

This project is mainly used for Singapore workers. In this lockdown users purchase things from home, whatever they needed. And this app has wallet transaction features, temperature Reports , Bingo games, I learned a lot of things in this project, I deployed into server using AmazonAWS, I have handled Api, and I using bootstrap for complete redesign. I have handled laravel framework ,codeigniter Framework for developing project.

visual code
,Notepad++

INTERESTS

Create Web pages
Developing websites in PHP
Making web design in Bootstrap,
HTML CSS
